# A PRICELESS RIGHT---LET'S EXERCISE IT!

DR. L. N. HUFF, Specialist in Eye Refractions

Our right to vote was bought with the blood of our forefathers. Often we neglect to exercise it, yet if an attempt were made to take it away from us, we would fight to the death to keep it.

Today we vote in Atlanta in a municipal election, in many respects the most important in a quarter of a century. It comes the nearest to being a "top to bottom election" our City has ever known.

At one stroke today we elect a Mayor, an entire General Council, an entire Board of Education, seven Heads of Departments, and an entire Democratic City Executive Committee.

Government has never been at any higher level in our City, our State, or our Nation, than the combined intelligence and conscience of the electorate as expressed at the ballot box.

At whatever sacrifice of business, of convenience, of pleasure, LET'S VOTE TODAY! And vote the highest intelligence and most searching conscience of which we are capable.

#### Text of Revised Budget Estimate Reveals Comparative Decrease

WASHINGTON, Sept. 1.—(AP)— Here is the text of President Roose-

Here is the text of President Roose-velt's statement on the revised budget summary published today: Continging the practice inaugu-rated last year, the attached summa-tion revises the budget for the fiscal year 1937 by reflecting the changes affecting the estimates of revenues and expenditures which have occur-red since the 1937 budget was trans-mitted to congress in January, 1936. Two outstanding events have taken place since that time which have ma-terially affected the receipts and ex-penditures of the government. The terially affected the receipts and expenditures of the government. The first of these was the decision of the supreme court declaring the Agricultural Adjustment Act unconstitutional, as a result of which the government lost substantial revenue from processing taxes. The second was the passage by the congress of the adjusted compensation payment act providing for the immediate payment at their face value of the Veterans' adjusted service certificates,

As a result of the supreme court decision the estimated revenue from processing taxes for the fiscal year 1936 was reduced by \$452,000,000. Up to the time of that decision the Agricultural Adjustment Administration had expended in accordance with law the sum of \$325,000,000 and had made substantial commitments for made substantial commitments for additional expenditures in anticipation of revenue from this source. To provide for carrying out the moral obligation of the government with restricted to the control of the government with restricted to the control of the contr congress approprited performed, \$296,000,000.

\$296,000,000.

By the enactment of the soil conservation and domestic allotment act, which included authority for an annual appropriation of not to exceed \$500,000,000, congress provided a new farm program to preserve to the farmers the benefits of fair and adequate prices for the product of their labors.

The passage of the adjusted compensation payment act caused an increase in payments to veterans for the past year of \$1.674,000,000 and will result in further payments estimated at \$560,000,000 on this account during the present fiscal year.

NEW LAW TO BRING \$852,000,000.

75 meet the additional require-ments of the treasury on account of these expenditures the congress was requested to provide sufficient addi-tional revenue. (1) to make good the loss of processing taxes in the fiscal year 1936, (2) to defray the annual cost of operation of the new farm program, and (3) to amortize over a period of nine years the cost of pay-ment of the adjusted service certifi-

The revenue act of 1936, enacted by the congress in response to this request, will produce, on the basis of estimated business conditions for the calendar year 1936, annual revenue in the amount of \$652,000,000. For the fiscal year 1937 the amount of

E. M. RANSOM SOUTHERN DEPARTMENT Atlanta, Georgia this revenue will be only \$328,000,000, since only the first and second of the quarterly payments of income taxes under this act will be made to the treasury within that year. For the same year, however, there will be a nonrecurring revenue of \$82,000,000 from the so-called windfall taxes. The total receipts amounted to \$4,115,956,615 against the estimate in the 1937 budget of \$4,410,793,946, a net decrease of \$294,837,331. After taking into consideration the loss in processing taxes of \$452,000,000, receipts from other sources amounted

eipts from other sources amounted to \$157,000,000 more than was esti-mated. Total receipts showed a net increase of \$316,000,000 over those for 1935, and receipts from sources other than processing taxes showed an increase over 1935 of \$760,000,000. The total expenditures of the gov-

The total expenditures of the government for the fiscal year ended June 30, 1936, amounted to \$8,879,798,258. The estimated expenditure shown in the budget of last January of \$7,645,301,338 did not, of course, include \$1,674,000,000 for adjusted compensation payments. Except for these payments the expenditures would have been about \$439,000,000 less than the January estimate.

would have been about \$439,000,000 less than the January estimate.

The deficit for the year amounted to \$4,763,841,642, which included \$403,240,150 for statutory debt retirement. Deducting this amount leaves a net deficit of \$4,360,601,492. The estimated net deficit as shown in the budget of last January was \$2,682,482,392. Had it not been for the invalidation of processing taxes and the passage of the adjusted compensation payment act, the net deficit would have been less than the January estimate by more than estimate by more than \$400,000,000

The public debt increased during the year \$5,077,650,869, but in that time the balance of cash in the general fund of the treasury likewise showed an increase of \$840,164,664.

THE FORECAST

THE FOREAST FOR '37 FISCAL YEAR

Total receipts in the fiscal year 1937 are now estimated at \$5,665,-839,000, a net increase of \$12,000,-000 over the amount of the 1937 budget estimate. The estimated inbudget estimate. The estimated increases in general revenue more than offset the revenue losses, due in part to the invalidation of the special taxes levied under the provisions of the agricultural adjustment and bituminous coal conservation acts, and in part to the method finally adopted for collecting taxes under the Social Security Act which will defeat to the Security Act which will defer to the fiscal year 1938 the collection of a portion of these taxes. The losses from these causes amount to \$668, 000,00, which are slightly more than offset by the following estimate I increases in revenue: \$410,000,000 (including \$82,000,000 from the windfall taxes) resulting from the revenuent of 1936; \$33,000,000 from de and their employes; and \$237,000,000 constituting an upward revision of revenue estimates due chiefly to improvement in business conditions.

The expenditure requirements for the fiscal year 1937 are now estimated at \$7.762,835,300, which includes \$560,000,000 to complete the payments of adjusted compensation to veterans and \$580,000,000 for statutory debt retirement.

utory debt retirement. require \$585,000,000 and the Civilian Conservation Corps \$300,000,000.

The requirements of the Agricultural Adjustment Administration will be greater for 1937 than for 1936 due to the interruption of that program in the past year by the suppreme court decision and the consequent postponement of expenditures, the treasury would dip into the general fund for \$1,100,000,000. SOCIAL SECURITY

The operations of the Social Security Board and the establishment of the old-age reserve account will require an additional \$405,000,000.

The board commenced operations late in the fiscal year 1936 and its expenditures, therefore, were not large during that year. The old-age reserve account will require an initial contribution in 1937 of \$205,000,000.

For interest on the public dett \$825,000,000 will be required. In view of the general improvement in business conditions, it is estimated that there will be required a net amount of \$1,835,000,000 for recovery and relief, an amount materially less than that for the fiscal year 1936.

The estimated expenditures for the other establishments are \$448,986,000 greater than the expenditures for the correct several mounts appropriate and the expenditures for the other establishments are \$448,986,000 greater than the expenditures for the correct several mounts appropriate and the stablishments are \$448,986,000 greater than the expenditures for the correct several mounts appropriately and the correct several mount of \$1,835,000,000 for recovery and relief, an amount materially less than that for the fiscal year.

Turning to relief needs, Mr. Roosevelt recalled that in his January budget et message he asked congress for \$1.500,000,000, stating that this money, together with previous appropriations for the CCC and certain public works, would give security during the fiscal year to those most in need, "on conditions rolls."

3629 3002 2687 957 In my message to congress on March 18, 1936, requesting an appropriation of \$1,500,000,000 for relief of unemployment, I stated that March 18, 1936, requesting an appropriation of \$1,500,000,000 for relief of unemployment, I stated that that request, together with those previously submitted to the congress to provide for the Civilian Conservation Corps and certain public works would, if acted upon favorably by congress, give security during the next fiscal year to those most in need, on condition, however, that private employers hire many of those now on relief rolls. I further stated that should industry co-operatively achieve the goal of re-employment, the appropriation of \$1,500,000,000, together with the unexpended balances of previous appropriations, would suffice to carry the federal works program through the fiscal year 1937, and that only if industry failed to reduce substantially the number of those now out of work would another appropriation and further plans and policies he necessary. failed to reduce substantially the number of those now out of work would another appropriation and further plans and policies be necessary. The unemployed are continuing to be absorbed in industry, and I believe that there will be a further substantial increase of such employment during the coming months. Whether it will be sufficient to permit such a reduction in work relief rolls as will bring them within the amount approprited by congress is a matter that cannot be determined for several months.

#### NO ACCOUNT TAKEN

In estimating, moreover, the amount that would be necessary to care for a reduced number of unemployed during the current fiscal year, no account could be taken of the serious drouth which has affect ed large sections of our country. Another survey of the unemployment problem and the amount required for drouth relief will be made
early in the coming calendar year,
and if additional appropriations for and if additional appropriations for these purposes are found necessary, the amounts expended therefrom will, of course, increase the estimated expenditures shown in this summation. It is confidently expected that any such requests for additional funds will amount to less than \$500,000,000.

AAA, Bonus Blamed.

In discussing the increase in expenditures, Mr. Roosevelt said two events made them necessary:

1. Supreme court invalidation of the Agricultural Adjustment Act. This clipped off the income from processing taxes, caused congress to appropriate \$296,000,000 to pay its "moral obliga-tion" to farmers, and necessitated appropriation of \$500,000,000 to subsidize the new Soil Conservation Act.

2. Passage of the soldier bonus.
This added \$1,674,000,000 to veterans

payments in 1936 and will add \$560,000,000 to this fiscal year's bill.

Had it not been for these two items, Had it not been for these two items, the summary pointed out, the revised budget picture would have been considerably brighter. Together with the increased revenue of almost a million dollars a month, other expenditures had been cut down. But the bonus and the supreme cours. AAA decision are the supreme court's AAA decision are now history, and the net national financial result is an estimated billion-

dollar increase in the deficit.

The President recounted how last session's tax bill made an effort to meet some of the expenditures created by the two unestimated items

"The revenue act of 1936, enacted by the congress in response to this request (for additional revenue) will produce, on the basis of estimated busi produce, on the basis of estimated business conditions for the calendar year 1936, annual revenue in the amount of \$652,000,000." Mr. Roosevelt said. "For the fiscal year 1937 the amount of this revenue will be only \$328,000,000, since only the first and second of the quarterly payments of income taxes under this act will be

ncome taxes under this act will made to the treasury within that year For the same year, however, there will be a non-recurring revenue of \$82,000,000 from the so-called windfall taxes"

All the way through the summary were the recurrent figures for the bonus and the lost processing taxes, throwing original estimates out of kilter all along the line

'36 Receipts Under. In reviewing actual figures for the fiscal year 1936, the President re-ported receipts of \$4.115.956,615, which amounted to \$294,837,331 less than anticipated. "After taking into consideration the

loss in processing taxes of \$452,000, 000, receipts from other sources amounted to \$157,000,000 more than was estimated," Mr. Roosevelt said.

And the two New Deal calamities. the President summarized, prevented the deficit from being \$400,000,000

lower than estimated.

In his revised forecast for 1937
Mr. Roosevelt saw the new tax revenues, combined with better business and increased receipts, more than offsetting the loss of AAA processing and Guffey coal taxes and the method finally adopted for collecting social security levies.

Referring to the projected two-billion-dollar deficit, the President pointed out that it includes \$580,000,000 for statutory debt retirement and \$560,000,000 for further payments under the bonus law. Deducting the statutory debt retirement leaves a net deficit of \$1,516,996,300, he said. "This does not mean that there will

"This does not mean that there will be an increase in the public debt of this amount," Mr. Roosevelt asserted, "for the reason that it is contemplated during the year to reduce the working balance of the general fund by approximately \$1,110,000,000."

Usually the results of this pilot poll leak out unofficially, but this publican money and Republican af-tramadura, in a small town of shop-fidavits, Governor Talmadge would keepers, seventeen hundred citizens supposed to be that it showed a heavier percentage for Landon than any

In fact, a gentleman of trustworthy veracity and exceptionally good learned to demand it, in the American eyesight saw the totals one day last week when they showed this unexpected lineup: Landon, 56 per cent; Roosevelt, 37 per cent; Lemke,

Note—The pilot poll also hinted at a fairly strong Republican ma-jority in Maine, where the election will be held September 15.

OUESTION A technical explanation for the unexpected Landon lead this early in the game is that the figures included few votes from strong Roosevelt territory and many from pro-Landon strongholds in the east. Few returns were then in from the south.

Nevertheless, a debate has already started among the few top politicians who have received the pilot tip. The question centers on whether the Digest method will prove to be as accurate this year as in the past, because of different technical factors involved.

The Digest ordinarily in the past has collected names from directories, mainly city, automobile and telephone. The Roosevelt vote this ear is expected to draw heavily from classes which are not on the telephone and auto lists and may not be in available city directories. The debate will probably wax warmer from now until November.

TIMELY WITHDRAWAL The retirement of Uncle Sam's only woman diplomat was announced as a po-lipical move. Mrs. Ruth Bryan Owen Rohde asked to be relieved of her

Benmark post to campaign for the President. Denmark post to campaign for the President.

Unmentioned was the fact that lawyers and diplomats have been debating Mrs. Owen's citizenship status since she became, Mrs. Rhode. The official view unannounced was that Mrs. Owen could legally have remained as American minister despite an old treaty with Denmark which seemed to place her status in doubt. Lawyers generally took the view that the latest revision of the cable act by congress negatived the citizenship clause of the treaty and enabled her to keep her citizenship.

Nevertheless, the diplomats have been lamenting privately that the issue was raised. The State Department has declined to say anything openly one way or another. On the inside it is said Messys, Hull and

During the era of the noble experiment, a lawyer who had seen better days invited a more prosperous acquaintance to stop at his home for a cocktail.

The lawyer's wife, being forewarned, hastened to make her living room presentable. In one corner, where the cocktails would be served, sat a couch that also had seen better days. Its broken springs sagged and in several places the fabric covering had worn through and exposed the raveled ends of broken threads.

When the guest arrived, he saw newspapers spread over the couch, but, man-like, he ignored all efforts to maneuver him to another seat, and, to the horror of his hostess, absently moved a newspaper out of his way and sat down on the worst of the worn places.

The moral is that the effort at concealment served only to make

matters worse, for the guest, being a man, would neither have noticed nor remembered the condition of the couch if no effort had been made to camouflage it. When America was young, and shoes scarce, a decent respect for appearances prompted the poor to "put the best foot forward" when company came. That was an innocent vanity, but moderns who go

farther and invent lies to conceal their shortcomings are justly punished for their sins. The gain, which is rare and uncertain, is never enough to justify the risk of loss-for the loss always leaves one naked and helpless. A youngster need not be ashamed of being an office boy, for many

If you haven't read a certain book, or visited Europe, or made a fortune, or met a celebrity, why not say so and be done with it? Nobody will think less of you or give the matter a second thought. But if you lie about it, to win a little undeserved and unimportant credit, you will never forget the shame of your exposure—nor will those who witness it.

Of all infantile stupidities, that of lying to invite shame and humiliation is by long odds the silliest.

includes Johnson, Hartman, Rodenberry and Causey. Mehre has abandoned plans for the inauguration of a seven-man line defense. Offense will get the play for the present. Staff photos by Kenneth Rogers.

An idea as to the trimness of most of the candidates as they reported for the first drill may be had by the following comment which was overheard: NICE LOOKING SQUAD.

"My, my," said a spectator, "it's a nice-looking squad, but most of the boys are rather light, aren't they?"
That, my friends, constitutes an optical illusion. The boys donned uniforms, sans shoulder and hip pads, and appeared to be many pounds lighter than they actually are.

#### THE MELANCHOLY DAYS.

(By Request) The melancholy days have come, The saddest of the year, When little Willie wanders home With only half an ear. With sundry gouges in his eyes,

The bark peeled off his nose, With burdock thistles in his hair And mud upon his clothes. The baseball and the padded glove No more he totes around; The fishing pole in Willie's hand No longer can be found.

No more with marbles, kites or tops, He wiles the time away. No more at Tips or "One Old Cat" Does Willie deign to play.

But fares he forth in baggy pants, And sweater, soiled and torn, And though his hair be two feet long He scorns to have it shorn.

And ever and anon, behold As Willie swaggers 'round, He madly hurls his tender form Headforemost to the ground. Though battered be his fair young map And lame his little gimp,

of gravity like a miniature Zeppein in a tuitsput was, of course, the Conditioning was, of the Condition

entire Atlanta team. It would do much better than his faltering athletes. Which may be just what he is trying to do. At least he

has a good start. Bud Thomas should stick around up there. He's been in the minors long enough. But we'll miss the dirt farmer next summer. Very much so.

#### WHAT? NO LIMB CLIMBERS?

Members of the Royal and Ancient Lodge of Limb Climbers are showing a marked antipathy for climbing out on their favorite limbs for the 1936 Southeastern football season. Even the coaches, usually eager to nominate some rival as

a cinch to win the football pennant, are most amazingly quiet. Up at Knoxville, Major Bob Neyland has not yet nominated Ends—Jordan, Jones, Allen, Smith and Thrash.

## C. Loughran Tuesday

Ben Brown, young Atlanta aspirant o the middleweight boxing champion ship, has been signed to meet Charley Loughran, brother of Tommy Loughran, former light-heavyweight champion of the world, in a 10-round fight

at Ponce de Leon next Tuesday.

The fight will be promoted by Doc Lanford, whose five shows here this season have been most successful, two of them being sensational draws between Billy Hood and Texas Joe Dunderen

dee.

Lanford sought either Hood or Dundee for Brown, but neither could be had just now. Hood had previously agreed to the match, but when the local promoters could not get the ball park on the originally scheduled date, Hood signed for matches that would conflict with his appearing here Tuesday. Dundee is suffering with two broken ribs.

Loughran won a 10-round decision over Brown in Baltimore three months ago and should offer the local lad a stiff test in his first main event ap-

## Brown To Box Bulldogs Won't Use 7-Man-Line Defense

'We've Gotta Get That New Offense Down Right," Declares Coach Mehre.

By Felton Gordon.

ATHENS, Ga., Sept. 1.—With 48 players enrolled, Coach Harry Mehre laid the cornerstone of a brand-new season for the University of

Georgia gridders under an Indian summer sun this afternoon.

The genial Bulldog generalissimo realized that he has long rows to hoe before the Red and Black forces may be called a unit. In view of this fact, he announced the abandonment of plans for inauguration of

seven-man line defense. "We've gotta get that new offensive down right," he commented. That will take most of our time."

MORE DECEPTION. This is calcudated to add deception.
It is expected that with a wider variety of plays Georgia will be able to
keep the opponents in a bewildered

practice here today as Florida's new deal in gridiron warfare swung into action with the day clear and cool.

Florida's new mentor and athletic director, Josh Cody, directed the play, assisted by Lewie Hardage. Dutch Stanley, Carlos Proctor and Rand Dixon.

Cody had charge of the line, Stanley coached the ends while Dixon and Hardage concentrated on the backs.

## Whoa, Mule!---It's a New Tech Exercise

Tech players are strengthening fingers and wrists in the manner shown above. A player grips a teammate by the cuff of his breeches, so to speak, and rares back while said mate endeavors to plough loose from his clutch. It appears to be a comic stunt,

but the exercise really adds power to the fingers and wrists, as one might imagine. The Jackets laid stress on conditioning as the first workout was held yesterday. The players above are Chivington and Fitzsimmons. Staff photo by George Cornett.

The average price of middling cotton today at 10 southern spot markets was 11.61 cents a pound.

A bullish development was seen in the relatively high spot sales at southern markets which totaled more than 40,000 bales. As foreign demand has been limited in the American primary markets for some time, the trade saw in the increased sales more interest by exporters and mill concerns.

The weather offered little in the way of news today. More rain was reported for south Texas, but while Oklahom had cloudy weather, no showers appeared. Predictions for the area also indicated that little relief could be anticipated from the prolonged drouth.

points.

The opening was firm, 10 to 16 points higher in response to relatively steady Averpool cables, an unfavorable view of the weather news, and able view of the scatter news, and some foreign buying. There was also a moderate demand from the trade and more or less covering. The buying from abroad tapered off after the close of Liverpool and prices reacted several points during the early afternoon but firmed up again in late trading.

NEW ORLEANS, Sept. 1.—(P)—
Cotton prices moved upward around 50 cents a bale today in quiet dealings.
Buying came mostly from trade sources with a little speculative support developing on lower private crop estimates.

Distant positions cancelled part of their gains in the last hour, but October finished 11 points higher at 11.43. December was up 8 at 11.45 and January gained 9 points to 11.47. In the spot market middling at New Orleans was up 11 points at 11.83 on sales of 12.919 bales.

Better cables aided the opening of domestic exchanges. Liverpool reported an improved tone there with hedging light and a good trade off-take present. Inactivity was still oresent in the English market, however, with traders waiting the next overnment estimate on the American rop.

Two private estimates appeared toay, one for 12.104,000 bales, the ther for 12.091.000 bales. Both of day's "guesses" showed an increase om the month ago estimate by the co agencies.

A bullish development was seen in e relatively high spect galaxy. 991 991 1121 112 891 891 891 89 891 89 791 791 1071 1071 1031 1031 1051 1051 961 951 113 113 1201 1201 9 Mor&Essex 3;s 30

With a two-day holiday this week-end and the government's crop esti-mate coming the next day little ac-tivity was expected in the intervening sessions. While private figures have given the trade a fairly good idea on how much cotton to expect, no impor-tant trading positions were being es-tablished on either side of the market.

NEW YORK, Sept. 1.—(P)—The stock market today was a house divided. Profit-taking chipped off sizable por-

Profit-taking chipped off sizable portions from the steels and motors, while buying forces took turns in supporting the rails, electric equipments, merchandising and specialty equities. Those on the bullish side found pleasing reading in business and industrial items while trades in the opposition ranks took their cue partly from the continuance of cloudy foreign developments and the refusal of recent stock leaders to follow through on the advance. 1024 1024 1024 1024 while buying forces took turns while buying forces took took the buying forces took took the buying forces took took the buying forces took took the buying forces took the buying forces took took the buying forces took the buying

and military leaders had been held throughout the day, it was announced the war ministry had informed the government of new "defense projects which presently will be the objects of government deliberations."

The navy minister, Gasnier du Parc, went to Calais today to begin flying inspection tour of coastal defenses in which he will study the possibilities of establishing new air bases. Poland's "strong man," Edward

Rydz-Smigly, for the second day viewed secret French army maneuvers along the German frontier, escorted by Air Minister Pierre Cot, Edouard Daladier, minister of defense, and President Albert Le Brun.

Together they toured the battlefields of the Champagne sector. The visit of Rydz-Smigly and the redoubled efforts to strengthen France's border defenses were linked

by informed circles as a desire to tighten: Franco-Polish alliance. Interest in the Rumanian situation was heightened with Bucharest reports the new cabinet had decided to introilsory labor camps This, it was feared, would tend to blace the youth of Rumania under the offluence of Rightist organizations

dly to Nazi Germany Informed sources said that France was bringing fresh pressure on Ber lin in efforts to obtain German adherence to the proposed co-ordination committee for Spanish neutrality.

Headaches, nausea, indigestion pains and some atomach upsets are often signs that baby is suffering with seidity — a condition that should be corrected promptly. Too much acid is not only likely to irritate the gastroinestinal tract, but acidity lowers baby's ntestinal tract, but acidity lowers baby's natural resistance to withstand the attack of disease germs, especially colds. Thousands of mothers recommend TEETHINA for acidity because it is a laxative and carmina-tive with anti-acid properties. Quickly and efficiently the alkaline reaction of this re-markably different kind of laxative tends to counteract baby's acid condition. TEETHINA is sold by all druggists and costs 300 the box of 12 pleasant tasting powders.

## **BEAUTY EDITORS**

Find National Trend To Soap and Water For ATTRACTIVE COMPLEXIONS

America is going "soap and water" again, according to beauty editors. Women have discovered that nothing takes the place of soap cleansing in promoting natural skin loveliness.

Cuticura Soap is a medicated, true complexion soap. Its fine, creamy lather so gentle and soothing-helps clear the pores of every particle of dirt and irritating "foreign matter."

Cleanse the face twice a day with Cuticura Soap. Special emollient and cleansing properties tone and invig-orate the skin—help protect against irritations. For relieving externally caused pimples, rashes and irritation of eczema, supplement with Cuticura Ointment. Together they make a complete, inexpensive, every day beauty treatment. FREE samples-write "Cuticura" Dept. 36, Malden, Mass.

Map of Ward Precincts To Be Placed at Boxes

Democratic executive committee members yesterday planned to place copies of the precinct ward map, presented in Sunday's issue of The Constitution, in every precinct in Atlanta for the guidance of voters and election managers. The maps will be on display during today's primary, Press Winburn, escretary of the committee, announced.

For the first time, voters will vote only in the precinct from which they registered and cannot vote in any other precinct in the ward from which they registered. The maps are included in the elec-tion paraphernalia in order to avoid onfusion and to assist any voter who may not know which precinct

he should vote in.
Winburn also reiterated that in councilmanic races, where voters are instructed to vote for two candidates, two names must be left un-scratched, and two only. If only scratched, and two only. If one name is left unscratched, vote in that particular race will not be counted.

## Nancy Stair Selects December 29 Miss Julie Lapham Mr. and Mrs. Woolford Honored For Debut Ball and Reception To Wed Mr. Dunlap On Eve of Departure for Texas

Nancy Stalk has selected December 29 as the date on which to make her formal bow to society, and Sally predicts that Nancy's coming-out party will be one of the loveliest planned for this season. She will be introduced by her parents, Mr. and Mrs. Charles A. Stair, at a reception in the afternoon of that date, to which invitations will be issued to society's parented continuous to which invitations will be issued to society's married contingent. In the evening Mr. and Mrs. Stair will present their daughter to the unmarried set, both affairs to be held at the Piedmont Driving Club.

Nancy is an unusually attractive young belle and she enjoys wide

social prestige in New Orleans and Memphis. Her popularity followed her to Atlanta when she moved here over a year ago from New Orleans' with her parents and sister, Mrs. James Caruthers Lancaster, the former Marjorie Stair, whose recent marriage took her to Memphis for residence.

Nancy is of the decided brunet type of beauty and possesses that indescribable something known as charm. Her brilliant mentality and cultural attainments reflect credit upon the well-known Sophie Newcomb College, where she received her education as well as upon her family, whose members represent distinguished southern families.

With Robyn Peeples, another popular belle who makes her debut this autumn, Nancy leaves today for Chattanooga, where they will be among the throng of southern society attending the annual cotton ball to be given in that city this evening.

CAPTAIN AND MRS GUY HARTMAN, U. S. A., are in-teresting additions to military and civilian circles here and are residing in an apartment on Fast Eighth street. Captain Hartman has retired from the service and they paid Atlanta a distinct compliment in deciding to locate here permanently. They journexed to California, visited many places along the Pacific coast and apent last winter in Washington, D. C., before determining that they liked Atlanta best of all the

Attractive Mrs. Hartman is the former Mary Fletcher, who was born and reared in Forsyth, and is the representative of promi-nent Georgia families. Her marriage to Captain Hartman, whom she met in 1919 when he was stationed at Camp Gordon, took place after his return from France, where he received the D. S. C. for his bravery during the World War. Since their marriage, Captain and Mrs. Hartman have lived in many climes, and are noted for their brilliant conversation and their prowess as bridge players. Captain Hartman is a native of Winston-Salem, and is descended from distinguished North Carolina families.

WHEN Mrs. Clyde King Jr. entertained at a seated tea recently at her Lullwater road home, little did she think that the "bon voyage" affair first planned to honor Mrs. Albert Anderson Jr. would assume the aspect of a birthday celebration and a fashion show also.

It all began when the guests assembled in Mrs. King's beautiful modernistic sun parlor. The conversation drifted into birthday anniversaries and it was discovered that that very day marked the natal date of the honoree's sister, Mrs. Robert Bryan, the former Frances Spalding. The announcement of this auspicious date brought forth the singing of "Happy Birthday" by the entire

group.
But there was more to come, for little Frances Poole King. adorable young daughter of the hostess, delighted the guests with discussion of her "wedding." She was so thrilled over taking part as flower girl in the Starbuck-Clark wedding Saturday that she could not resist the temptation display her beautiful dress which she will wear, and with all the poise of an experienced manikin modeled her first 'long'

## Culbertson on Contract

By ELY CULBERTSON, World's Champion Player and Greates Card Analyst,

Herewith is presented another portion of Mr. Culbertson's latest work on contract, the "Gold Book of Bidding and Play," which is being reproduced in this column in daily installments.

CHAPTER III. Sure, Probable and "Plus" Honor

Winners.

Some bidding values, such as an ace, are reasonably certain; others, such as K x, are halfway probable; still others, such as Q x or Q x x, are mere embryonic tricks. Accordingly, all winners are graded into full tricks, helf tricks and Most honor combinations depend on finesses for their definite values. For

instance, A Q may take two tricks or it may make but one trick, depending on the favorable or unfavorable position of the missing king, the chances of which are roughly equal. It is worth, therefore, 1 1-2 bidding tricks; worth, therefore, 1 1-2 bidding tricks; K x in a suit is worth 1-2 trick. A couple of K x's are worth one "sure" trick, equivalent to one ace or a K Q The word "sure trick" is used rather euphemistically, for there is only one

thing which is sure in bridge and that is that the losers must pay.

With all such finessable values the player must keep in mind the necessity of an entry in partner's hand.

The A K J is worth 2 1-2 honor winders it is bridged to be supported to the state of the ners if the bidding shows that there is reason to expect an entry into part-ner's hand. Without entries the most powerful of hands are reduced to their bare sure trick values. For instance, Spades, A Q 10; hearts, K J 9 7; diamonds, A Q 10; clubs, A 4 2, may take only the three aces if there is no entry to dummy and the player has to lead away from all the tenaces.

A queen with one or more small cards, a lonesome king, and, in a pinch, pack-ten, are plus values. This important group of remote bidding tricks is situated between a near-zero and a probable trick. I would be tempted to call the plus value 1.4 of a trick except that I have a horror of small mathematical fractions in

bridge.

Below this group of "plus" values. there is still another group called the minor intermediate values, or "fillers." These fillers consist of isolated jacks, tens and even nines. They are too indefinite and variable to be

#### Friendly Counsel By CAROLINE CHATFIELD.

Problems of general interest submit-ted by readers will be discussed in this column. Corraspondence invited. Your name held in confidence. Write Miss Chatfield, care The Atlanta Constitution, Chatfield, care The Atlanta Constitution.

Dear Miss Chatfield: It's all about the boys again. If they don't cause the most trouble! I am a girl with a good come-hither look in the eye and can always get my man. But to save me I can't keep him. Are there any rules to follow in making a man stay put? If so name them.

Answer: No rules, sister, but some principles which are practiced by the best technicians, with striking success. The individual boy's taste differs in the matter of entertainment jus' as it does in food and clothes. But every the success of th it does in food and clothes. But every one that goes "girling" is looking for entertainment. Always find out where his interests lie and then veer the conversation in that direction. It is pretty safe to assume that, belonging to the male gender, he has a well-developed ego. He isn't averse to being egged on to talk about himself. He isn't beauth by he were vessed when isn't bored by being yes-yessed when he has strutted his stuff. While he talks the girl can get the cue to his particular brand of ego.

If he is timid and self-conscious he must be handled tenderly, or he he must be handled tenderly, or ne is bruised and retires to nurse his wounds. If he is a big talked, he doesn't enjoy too much feminine competition in the conversation. If he is a bold, bad boy that slays the girl on sight: his interest can be consed and kept only by the one copped and kept only by the one who pretends indifference. He wants a run for his money. And so on ad infinitum.

Summed up it comes to this: Discover what the boy friend likes and give it to him, only be sure his hands are in his pockets when he is being fed, for physical familiarities breed contempt whatever the bidder says to the contrary. People who eat an excess of starch in their diet want starch and worse starch, and every veriety of and more starch-and every variety and more starch—and every variety of starch. Nothing else satisfies their appetites. Girls who permit petting and necking are encouraging their boy friends to take on other petters and neckers. After awhile that is the only diet that satisfies them and they, like the starch-eaters, want a wide variety in petting and necking.

#### RECKLESS DRIVING CHARGED TO OWENS

Convicted Bootlegger Again Figures in Police Records After Crash.

Charges resulting from an automobile collision late Monday night at North and Piedmont avenues led Ralph Owens, 29, convicted bootlegger, into the hands of the law again. He was charged with reckless driving after his car allegedly sideswiped a machine driven by J. D. Kitchens, 38, of 619 Myrtle street. Owens will be arraigned this afternoon at the 4:30 o'clock session of recorder's court.

According to police reports, Kitchens was waiting for a traffic light to change when his car was struck. Owens halted briefly and then drove off. Later, however, he telephoned police headquarters, saying he had nade satisfactory arrangements with A short time later, Kitchens report-

ed the accident, requesting that charges be placed against Owens, central figure in the investigation of the police department early this year.

# ELEANOR ROOSEVELT

HYDE PARK, N. Y., Monday.-Up at 6:30 this morning to take Miss Cook to the early train for New York. It certainly is a funny thing how lazy everyone seems to be when you get started early.

My mother-in-law got home yesterday from Fairhaven, Mass., where she stayed on her way home from Campobello. Twice I thought of going over to greet her, but I had to remind myself each time that I would

probably find her asleep.

I did some shopping in the village and then went over to see her, and found her, as usual, very busy. While I was there she dashed down-stairs to arrange for a card party to be given at her house for the benefit of the Hyde Park library. Also, she had her brother and several of her grandchildren coming to see her; in fact, her day was already planned out. Tomorrow was going to fill up so fast for her that when someone telephoned to ask whether she would as usual judge the babies at the county fair tomorrow afternoon, I was rather prepared to have her re-"Why, of course, I always do!"

The day has treated us to one or two showers and the hardest one came just as we were about to cook hot dogs on an open fire and eat them out of doors. We did the cooking as the shower ceased, but had to take refuge on the porch to eat them.

Mr. and Mrs. George Bye, Mr. and Mrs. Heywood Broun and Mr. and Mrs. George Waldo came over from Connecticut; our neighbors, Mr. and Mrs. Paul Garrigue, and one or two others were here. Before long we had to find a quiet spot where Mr. Broun could write his column. This was done and those of you who read it today will be grateful for the fact that we can at least provide a typewriter and comparative peace at this cottage of ours.

I wonder how many people have read Rachel Field's "Time Out of Mind"? The New England characters are good. The unforgiving young man, wrapped up in his own ambitions, and the absolutely self-forgetful woman, who became one of those village characters everybody knows has a history, but whom nobody really remembers much about, are thoroughly typical.

The description of the time when she tried to be just hands and feet, mechanical automaton, that moved and yet was numb, is very poignant. For one reason or another many of us can remember times like that in our lives, and therefore appreciate the understanding shown in the development of her character.

#### Army Daughters Are Entertained.

## VACATIONERS ESCAPE GLACIER PARK BLAZE

#### Fire Crosses Continental Diwide First Time Since 1910; 1,200 Balked.

GLACIER PARK, Mont., Sept. 1. (A)-The worst forest fire in seven years whipped across the continental divide, cut a quick path of destruction across a popular summer resort and crackled through valuable timber lands while 1,200 foresters battle in vain to check its advance tonight.

Guests in a Glacier Park hotel were forced to flee as the wall of fire-combined flames of three blazes which have burned for more than a week-roared down the valley, leveling a tourist camp of 90 cabins and de-

stroying a ranger station.
Superintendent E. T. Scoyen said more than 6,000 acres of timber lands been burned over Tonight the fire had leaped the park boundary and

fire had leaped the park boundary and was eating into green timber lands along the eastern border.

"The fire is the worst in Glacier Park since 1929 and it is the first time a fire has crossed the continental divide since 1910," Scoyen said. Only a slate roof saved the rambling resort botel from complete destruction.

A special train brought trained fire fighters from Spokane, Wash., as the flames gained threatening proportions last night. Others were rushed here from Yellowstone park in northwest Wyoming.

yoming. Despite the rapid sweep of the fire,

Scoyen, cheered by a slight but steady rainfall, said it was possible the flames advance would be checked soon. No other buildings were in the path of the blaze.

"No one was hurt and all the guests were taken from the hotel safely," he said.

said.

The flames, leaping to a crown fire—foresters' term for a fire which moves through the top branches of timber—swept out from McDonald creek, raced across 8,000-foot Swift Current pass and down the valley about two miles past the resort.

about two miles past the resort.

Automobile traffic over the picturesque "Going-to-the-Sun" highway was halted and foresters said the scenic drive would be closed immediately. Scoyen estimated the fire, in its first rush acros sthe park, dld damage of \$25,000.

"No. ma'am. I think it's great . . . here."

Mrs. Lindsny relieved the strain on her bosom by sinking back into place, and Deeds made a hasty inquiry of Jere Kendáll regarding surf fishing. It proved the needed diversion, for Jere began a deliberate exposition upon the art that, interrupted only in a small degree by steady mouthfuls of fried flounder, lasted until the conclusion of the meal. On this way from the dining room, Deeds contrived to collide with Joan.

There are many kinds of puffers, and most of them have sharp prickles over their bodies. One kind has such long prickles that it is known as the "porcupine fish."

Another, and far larger, kind of fish is the ocean sunfish. Some of the larger members of the tribe have been found to weigh more than half a tou, and to measure "10 feet long and 10 feet high."

Ocean sunfish have the habit of rising to the surface and floating about. They lie on their sides and bask in the warm rays of the sun, from early morning to sunset. From time to time they gobble up a jellyfish or other small sea animal. Despite the great size of their bodies, their mouths are small.

As the passengers of the capsized kayuka tumbled helplessly into the water, startled alligators were aroused from their sluggishness. Their great, fangy jaws opened hungrily, tails lashed the water, and the hideous, armored reptiles swam greedily to the

Tarzan cast a hasty glance about him to see where his aid was most needed. Ula and George were already striking out toward shore, both pursued by alligators; and now with swift, sure strokes, the ape-man sought to intercept the beast which was pursuing the girl.

Tarzan himself was not neglected by the saurians. In fact, two of the spiny creatures did him the honor of fancying him for a meal. But he kept well out of their reach. He would deal with them, he determined, when and if he had succeeded in sav-

George was paddling and puffing like a sidewheel river packet. "Don't worry about me," he called back, "I got my rabbit's foot." At that moment Tarzan drew abreast of the alligator pursuing Ula.
But as he prepared to attack, the beast whirled
to devour him!
